AUSBIOTECH 2010 NATIONAL CONFERENCE SPEAKERS' PROFILE

David Mulcahy **Vice President Sleep Product Development** **ResMed**

David Mulcahy is Vice President of Sleep Product Development at ResMed, a global leader in the development, manufacture and distribution of medical equipment to treat sleep-disordered breathing (SDB) and other respiratory disorders. ResMed is listed on the NYSE and ASX. In FY2010 ResMed grew 16% and generated \$US 1.1bn in revenue.

David obtained a Bachelor of Science (Hons) from the University of Sydney in 1983 and a Master of Technology from Macquarie University in 2004. He started his career with medical devices as a software engineer at Telectronics where he worked for 8 years designing and developing implantable cardioverter defibrillators (ICD) systems.

In 2001, David joined ResMed as software Project Manager for a range of products, including Continuous Positive Airway Pressure (CPAP) devices for the treatment of Obstructive Sleep Apnea (OSA). He was part of the team that developed the successful S8 series flow generator and H3i humidifier system, which won the 2006 Australian Design Award. Recently David has moved into the role of managing the product development department responsible for creating innovative solutions for the treatment of SDB.
