## AUSBIOTECH 2010 NATIONAL CONFERENCE SPEAKERS' PROFILE

**Adam Panarello**  
**Engineering Projects Manager (Hardware)**  
**TeleMedCare Pty Ltd**

Adam Panarello is the Hardware Projects Manager at TeleMedCare, the producer of the TeleMedCare Health Monitor. The product is a desktop multi-parameter vital signs monitor featuring a simple user interface enabling video conferencing, messaging, questionnaires and a daily health diary, designed for the care of those with single or multiple chronic disease conditions. All can be easily made from the comfort of the persons' home enabling doctors and caregivers able to remotely monitor patients via the internet.

Adam has a Bachelor of Engineering (Electrical) and after being promoted to manage a specialised engineering design team early in his career went on to complete his Masters of Engineering Management (MEM). His association with small medical device companies gives him broad systems engineering experience as well as process and documentation requirements as mandated by ISO 13485.

Adam currently manages a specialised group of hardware engineers and runs the new product introduction programs and technology transfer with contract manufactures. Adam has successfully implemented products with three small medical device companies, all of which have won design awards.
