AUSBIOTECH 2010 NATIONAL CONFERENCE SPEAKERS' PROFILE

Dr Bill Lyons
Vice President and General Manager
Boeing Research and Technology - Australia

Dr William (Bill) Lyons is Vice President and General Manager of Boeing Research and Technology – Australia. He is also a Technical Fellow, one of the Boeing Company's enterprise experts in aerospace. Prior to taking over the General Manager position, he was based in Seattle in the Global technology Organization and was responsible for conceiving, planning and implementing international technology alliances, and collaborative R&D. In his technical career with Boeing, he led a number of development programs related to space-based remote sensing as well as modeling of atmospheric emissions by aircraft. He also is a member of the Boeing Company's Sustainable Biofuels Steering Team, guiding Boeing strategy to enable a viable commercial market for sustainable aviation fuel.

He has over 18 years experience in Systems Engineering and Systems Development for satellite applications. Before joining Boeing he was an Assistant Professor in Satellite Remote Sensing and Meteorology at the University of Oklahoma. He has also held Australian Government appointments in the Departments of Defence and Agriculture, including international assignments in South East Asia, representing Australian Government interests.

He is originally from Australia and has lived in the United States since 1998 and holds dual U.S. and Australian Citizenship.
