AUSBIOTECH 2010 NATIONAL CONFERENCE SPEAKERS' PROFILE

Dr Chaline Brown
Senior Director of Clinical Affairs
Ground Zero Pharmaceuticals
California, United States

Dr. Brown is a clinical pharmacologist with over fifteen years of experience in the pharmaceutical and biotechnology industries with a concentration in pharmacogenetics and clinical drug development. Focusing on the needs of small drug and biologics companies in her present senior position in the consulting industry, Dr. Brown provides integrated strategic regulatory guidance based on her understanding of the multiple disciplines critical to the medical product development process: clinical, statistical, regulatory, and nonclinical. She leads and coordinates multi-disciplinary teams to perform strategic program assessments and preparation of data packages for submission to the FDA. Her specific experience includes project management, clinical development and laboratory discovery of pharmaceuticals and biologics at OXO Chemie Inc., Tularik, Inc., and the MD Anderson Cancer Center. She has been involved with more than 30 IND programs across ten therapeutic areas (including oncology, CNS disease, infectious disease and somatic cell vaccines) from Pre-Phase 1 through Phase 3, and several NDA and BLA submissions to the US FDA. Some of these programs have involved molecules with Orphan Drug status in both the US and Europe. Her Bachelor of Science degree in Molecular Biology was granted by the University of Texas in Austin. She received her Pharm. D. Degree from the University of California, San Francisco and completed a research fellowship conducting pharmacogenetics clinical studies.
