## AUSBIOTECH 2010 NATIONAL CONFERENCE SPEAKERS' PROFILE

### **Judy Develin**

**Coordinator – Market Authorisation Group  
Therapeutic Goods Administration**

Ms Judy Develin - Coordinator for the Market Authorisation Group of the Therapeutic Goods Administration (TGA). The Market Authorisation Group was formed within TGA on 1 July 2010 and the Coordinator role incorporates overall responsibility for a number of offices, including the Office of Medicines Authorisation, Office of Devices Authorisation, Office of Complementary Medicines and the Office of Scientific Evaluation. Prior to taking on this newly created position, Ms Develin's role was to lead a number of significant business process reforms within the TGA. Ms Develin joined the TGA in 2007 to review the Medical Devices program and continued on to oversight the recommended changes to business processes. The outcome from changes implemented in the Medical Devices program resulted in applications being processed in agreed timeframes, new guidance information being available for sponsors and an ongoing working group created for industry and the TGA to continue to work together. In August 2009 Ms Develin commenced working on the business process reforms for prescription medicines, implementing the publication of Australian Public Assessment reports (AusPARs), Production Information and Consumer Medicines Information in late 2009. Prior to joining the TGA, Ms Develin worked in a number of Commonwealth Government positions with a variety of interesting responsibilities.
